## ADDITIONAL SKILLS AND INTERESTS

I work occasionally as a freelance translator and interpreter (most recently at the Mostra del Cinema 2021) and am considering doing the necessary qualifications to pursue this further.

I would also like to find time to learn more languages as I am absolutely fascinated by how they work and their differences, particularly the “untranslatable” aspects of each language.

I have been published on various websites for photography and travel writing and have also written a novel for which I am currently seeking representation.

I am an avid reader and have created and currently organise the Spazio Levante English Speaking Bookclub in Venice.

I am also a keen sportswoman and practice tennis, field hockey and English rowing.
